

Technical Data Sheet

WT-BPIG-060

Description: Metallic filled thermoplastic microwave absorber tuned for reflection loss, and surface current attenuation. The material can be supplied with, or without pressure sensitive adhesive for ease of application. Additionally, WT-BPIG-060 is RoHS compliant and Halogen free.

Color: Dark gray

Thickness: 0.060 inches

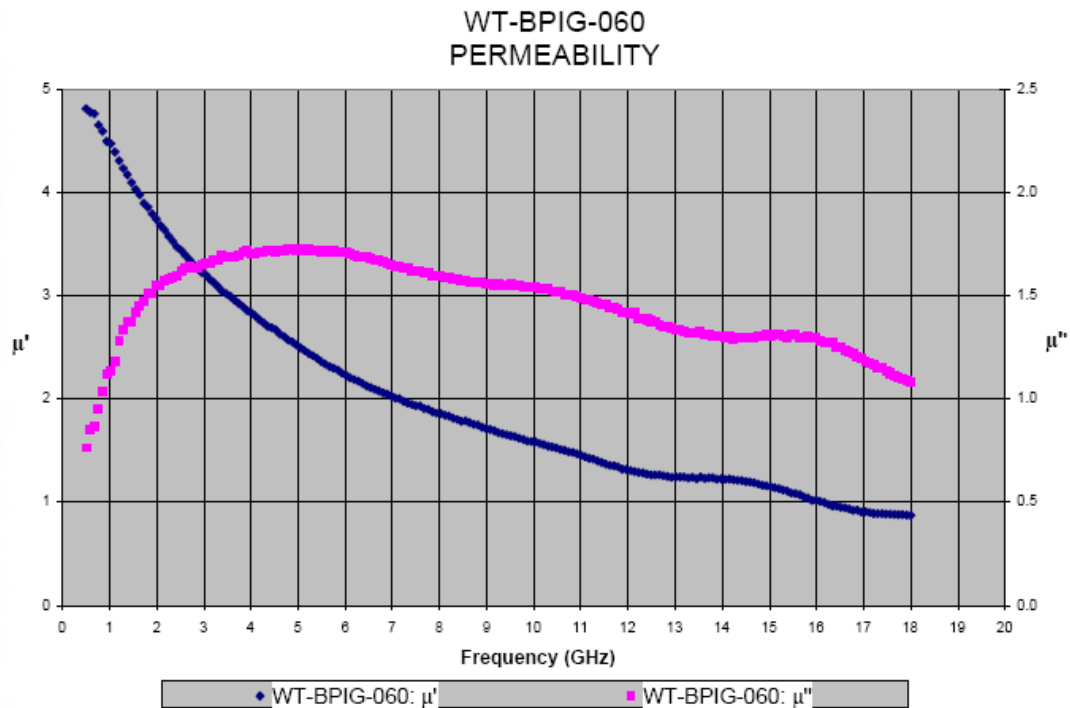

Density: 3.95 grams/ml

Hardness: 45 Shore D

Temperature Range: -65 F up to 200 F with short excursions up to +250 F

Size: Custom rectangular sheet sizes up to 24 inches by 48 inches; custom configurations can be water-jet cut, or die cut to customer drawings.

Flammability Rating: Not applicable
